

# Template

## Template

Key	Format	CND	Description
Templ ate	ans..20	O	Name of XSLT-file with your own layout for the pay form. If you want to use the redesigned and downwards compatible BNP template, please transfer the template name "ct_compatible". If you want to use the responsive BNP template for mobile devices, please transfer the template name "ct_responsive".

## Template-Bancontact

Key	Format	CND	Description
Templ ate	ans..20	O	<p>Name of XSLT-file with your own layout for the pay form. If you want to use the redesigned and downwards compatible BNP template, please transfer the template name "ct_compatible". If you want to use the responsive BNP template for mobile devices, please transfer the template name "ct_responsive".</p> <p>The payment method "Bancontact" can also be called via payssl.aspx. Therefore "template=ct_bcmc" has to be submitted mandatory, in order to the special Bancontact template will be used. It should be noted that Bancontact must already be selectable as a payment method in the checkout process. The template cannot be modified and must be used in exactly the same way, as it is based on strict Bancontact guidelines. <b>This is only valid for integration with Omnipay: EMS payment solutions.</b></p>
