Viewing statistics using the dashboard (optional)

The dashboard provides you with an overview of your payment operations with all associated payment transactions. The dashboard provides a visual overview of your operations in the form of tables and charts within individually defined periods of time, and as a comparison of the periods.

Notice: Websockets must be supported by the browser.

- Web Sockets on Edge is fully supported starting with version 12
- Web Sockets on Firefox is fully supported starting with version 11
- Web Sockets on Chrome is fully supported starting with version 16
- Web Sockets on Safari is fully supported starting with version 7.1
- Web Sockets on Opera is fully supported starting with version 12.1
- Internet Explorer is outdated
