

Showing the status of all operations

This evaluation provides you with an overview of the status of all operations, with OK and failed operations shown separately.

Status of operations as a circular chart

This evaluation provides you with an overview of the status of operations itemised by paymethod, with OK and failed operations shown separately, in the form of circular charts.

Hiding a paymethod

Click on a paymethod to have it hidden. The paymethod is also hidden in the circular chart. You will see the percentages without the paymethod that has been hidden.

Status of operations in several types of charts

This evaluation provides you with an overview of the status of operations itemised by paymethod, with OK and failed operations shown separately, in the form of different types of charts.

Complete overview of status details

Application Button

The button at the bottom allows you to jump to the corresponding page within the application. You must be logged in to jump to the corresponding page within the application.

BancomPP	00000000	Transaction completed		

1. Export the current table contents as an Excel file
2. Column configuration
3. Search function for each column

Configuring columns

You can use the "Column configuration" button to configure columns individually. The column headings highlighted in green are shown. Clicking them allows you to hide the columns shown. In turn, you can make the hidden column headings, which are highlighted in white, appear by clicking them.
