Overview of supported card schemes by payment method

Card processing

Computop Paygate processes all major cards and currencies worldwide. Transaction processing can be made via Paygate standard form, via customized forms, via server-to-server-connection or via batch transfer. Likewise Paygate can process transactions from stationary terminals.

Bancontact

Bancontact is a Belgian payment method for Debit cards with which the merchant obtains a payment guarantee and eliminates the risk of chargebacks. At the Bancontact checkout customers enter their card details and are then directed to their own online bank where they simply need to authorize the payment they have just made.

PagBrasil

Payments with the Brazilian credit cards Hipercard, Elo and Aura can be processed via the Paygate. Computop offers extensive support for the control optimisation as well as foreign currency conversion.

More than 30% of online payments in Brazil are made using the Boleto Bancário cash-in solution. With a payment form customers can pay in cash in supermarkets, post office branches or at one of over 48,000 bank terminals.

PIX via PagBrasil is now also supported.

PayU India

With the integration of PayU biz India merchants open the door to a rapidly growing e-commerce market. Only 30% of online customers in India have access to internationally accepted payment methods. With the integration of PayU biz via Computop Paygate merchants can offer 76 local payment methods to serve the majority of customers. This comprises of online transfers, credit and debit cards, eWallets and cash-in payments.

PayU LatAm

Within the extremely heterogeneous e-commerce market of Latin America success depends on offering the requested payment methods. The integration of PayU gives the merchant access to 74 payment methods from Mexico to Argentina. Besides all major online transfers as well as credit and debit cards PayU also offers payments with modern e-wallets and popular cash-in-payments.
